Subject: FW: NMFS Concurrence Letter on the EPA WA Hatchery GP
Attachments: 2016-11-8_Final_NPDES_Hatcheris_WCR-2015-3903.pdf

Good afternoon Dale,

I wanted to share the letter that we received earlier today from the NOAA Office in Lacey, concurring with EPA's determination that the NPDES Permitting of Federal and Tribal Hatcheries in WA State will not adversely affect listed species. There is a note below that some corrections/revisions are occurring, but that the substance of the letter will remain the same. Hopefully this letter can help as you review the Draft NPDES Permit for the Leavenworth National Fish Hatchery and our request to initiate ESA consultation on that action. If you need me to send the package of materials out to you again, or you have any questions about the Draft Permit, please don't hesitate to give me a call.

Thanks,
Jill

Subject: Will send revised LOC!

correcting the agency name, and revising the last page to update our office's current title.

Sorry about that. - It'll probably get to you tomorrow, but the substance is unchanged, which is the important part.

Subject: WCR-2015-3903 NPDES Hatcheries

Greetings!

Please see the attached PDF for your records.

Thank you,
Barb
